**DWR Announces Lake Oroville Vehicle Restrictions Imposed**

Oroville--As a result of declining lake levels, the California Department of Water Resources and the Department of Parks and Recreation have imposed temporary vehicular access restrictions at Lake Oroville's Foreman Creek and Enterprise Boat Ramp areas.

At Foreman Creek, vehicles are allowed on the paved roads and designated parking areas from 8 a.m. until sunset.

At Enterprise, the boat ramp is no longer in the water and has been closed to vehicles. The Enterprise parking lot is still available.

These temporary actions were taken to protect sensitive park resources.

---

The Department of Water Resources operates and maintains the State Water Project, provides dam safety and flood control and inspection services, assists local water districts in water management and water conservation planning, and plans for future statewide water needs.
